PROFESSIONAL SUMMARY

Product designer with 2+ years of experience designing consumer products and platforms. Skilled at translating user research and market research into clear requirements and ships products that solve real human problems.

EXPERIENCE

Racquet Set Go Lafayette, IN

Associate Design Program Manager Oct 2025 – Present

- Own evolution of central content and execution hub across CRM, email, and task management platforms, improving customer visibility into program status and operational efficiency.
- Led weekly stand-ups with founders, coaches, and operators to align on priorities, track program progress, and mitigate operational risks.
- Structured cross-functional workflows using Trello to prioritize tasks, track progress, and maintain team accountability.

Racquet Set Go Lafayette, IN

Operations Assistant May 2025 – October 2025

- Managed day-to-day program operations, maintaining momentum and client experience.
- Redesigned 5+ page Google Sites web experience, improving information hierarchy and messaging around program details and business model for client clarity.

Job Quest, Co.lab Remote

Product Design Apprenticeship Aug 2024 – Oct 2024

- Designed and shipped an AI-powered MVP web application that guides entry-level job seekers through resume creation and interview preparation workflows.
- Translated user research findings and feedback into actionable requirements, reducing ambiguity and accelerating iteration cycles.

Seminaut Inc: Guild Gaming Remote

Junior UX Designer Aug 2023 – Jun 2024

- Implemented and delivered an AI-enhanced post-event analytics dashboard, enabling event organizers to quickly assess performance and make data-driven decisions speeding up actionable next steps.
- Included "Create a Report" feature replacing manual spreadsheet entry, enabling stakeholders to understand reports and align on next steps.

UX Design Intern Remote

Jun 2023 – Aug 2023

- Built post-event analytics dashboard enabling organizers to assess event success and operational performance.

Baseball Little League, Purdue University Sponsored Project West Lafayette, IN

Product Designer | Team Collaborator January 2022 - May 2022

- Added announcement feature that reduced parent churn by 26.6% and lowered canceled-event attendance.
- Identified and designed emergency-contact onboarding flow to address parent safety concerns and increase trust in platform.

EDUCATION

Bachelor of Science in UX Design | Purdue University | May 2025 | Collaborative Leadership Certification
